Pavilion REIT (PREIT MK)

Buy (Maintained)

The Worst Is Truly Over; Maintain BUY

- **Maintain BUY and MYR1.55 TP, 10% upside and c.5% FY22F yield.** Our ground checks since the start of Phase 2 of the NRP point to a sustained recovery, as Pavilion Kuala Lumpur (Pavilion KL) is likely to see a swift normalisation in footfall. The worst is likely over for both Intermark Mall and Da Men Mall as well, and we believe the broader reopening of the economy should allow these assets to benefit from the resumption of business operations and hence, a return in foot traffic.
- **Recovery more certain for Pavilion KL.** Our ground checks suggest that foot traffic is likely at around 70% of pre-pandemic levels. The concierge shared that peak hours could see crowds breaching the 90% mark, and that authorities would make regular checks to ensure standard operating procedures (SOPs) are complied with. Crowds were the most encouraging at restaurants, but we are upbeat on the decent patronage seen even at the high-end stores during our visit this past weekend. While crowds were not at its heaviest during our visit, we look forward to the influx of customers towards the year-end, as we head into the festive season. Pavilion KL's brand equity and prime location should enable it to see its tourist volume shortfall being filled up by a surplus in domestic shoppers – taking a cue from 4Q20's performance. We also note that the occupancy rate at Pavilion KL has remained stable in the past year, at above 90%.
- **Intermark Mall to be supported by the return of office lunch crowds.** We visited Intermark Mall during the lunch hour on a Thursday, and saw that the lunch crowd was much more muted compared to before the lockdown. Aside from the volume shortfall caused by the work-from-home trend, we gather that the softness is also due to the fact that DoubleTree have seen minimal guests – leading to low spillover traffic for the mall. Aside from the relatively busy lower ground floor where the food court is, it was quiet in the upper floors where most of the closed-up shops are. Intermark's occupancy rate has dropped from 95% in 2Q20 to 85% in 2Q21, but we believe the situation for the mall should improve as vaccinations reaches a critical mass and office crowds gradually return.
- **Da Men a concern for them?** Management targets to turn the mall into an edutainment centre for children and families. Aside from the restaurants on the ground floor, Jaya Grocer and CHI X gym also had high customer traffic which suggests that the strategy to focus on being a neighbourhood mall is a good one to leverage on. With Dadi Cinema due to open soon, the prospects of attracting quality tenants (and more shoppers) are also more robust. This should bode well for the mall, as shuttered lots were present on every floor, with the occupancy rate having dropped to 68% in 2Q21 from 72% in 2Q20. However, we are cognisant of nearby competitors – Summit USJ, Mydin Subang Jaya Hypermarket and, to a certain degree, Sunway Pyramid as well.
- **We make no changes** to our earnings forecasts at this juncture.

Overall ESG Score: 3.00 (out of 4)

E: Good

Despite Pavilion REIT's initiatives to reduce the electricity consumption at its malls, high number of visitors in FY19 and the heat wave saw higher electricity consumption. Pavilion REIT also tracks its water consumption (using its installed groundwater harvesting system) and waste management.

S: Good

Community engagement is an integral part of PREIT's sustainability efforts, with events held by the malls such as OKU Art Exhibition and Charity At Heart. The Manager also provides extensive training programmes for its employees and monitors their learning curve.

G: Good

The Manager reviews its internal anti-corruption policies in line with the Malaysian Anti-Corruption Act 2018. The Board meets at least once every quarter, and have adopted the responsibilities as listed in the Malaysian Code on CG 2017.
